

INSTRUCTIONS FOR PARENTS

Hi Sunday School Students and Families,

I would like to invite you to join together as a family to embrace our new Sunday school format. It is easy to get started - just use the link below. There are instructions under the "LifeWay Kids at Home" heading just a little ways down the page. Follow the instructions and sign up for the free membership to LifeWay.

LifeWay Kids at Home is designed to help families conduct kids Bible studies at home during seasons when their church must temporarily cancel regular meetings. Each session includes an easy-to-facilitate media-driven experience that features a Bible story video, life application videos, and downloadable activity pages and family discussion guides. The resource also includes a missions moment and a Gospel presentation video.

On Saturday prepare by:

- Watch the Intro Video. After the video, click the BACK button in your browser to return to the main menu, or swipe left on your iPhone.
- Get the Downloads at the top right of this page: Print out the Activity Page and One Conversation Guide.

On Sunday your schedule will be:

- Gather your Family around your computer or mobile device after the Redemption Online Service. Open your Bible to the scripture passage on the One Conversation page.
- Watch the Video portion together as a family.
- Talk About the Story and the topic of the week with your family. Ask open-ended questions. Share your insights and encourage your kids to talk.

Here is the link to LifeWay:
